

# Balancing Project Priorities

## Become a Master Juggler

*A TWO-DAY WORKSHOP FOR PROFESSIONALS  
WHO JUGGLE MULTIPLE PRIORITIES*

**Balancing Project Priorities** is a workshop based on the innovative **Organizations Alive!® Model**. It is designed to equip project managers with essential tools for balancing the complex and interdependent requirements of their work assignments.

**Balancing Project Priorities** goes beyond the science of traditional project management skills. It takes juggling multiple priorities to a whole new level – to a creative, interdependent, integrated, and delicately balanced art form!

**Balancing Project Priorities** is for people who are responsible for managing projects – from start to finish. It is for those who keep all the balls in the air and all the plates spinning; those who must be alert, agile, and ready for anything. In short, it is for people who handle multiple priorities, and who are motivated to deliver on them ... on time ... on budget and ... on the mark.

**Balancing Project Priorities** is content-rich, fast-paced, and results-oriented. It is offered to individual contributors, as well as intact teams.
